and NSD File No. L-00-72.

Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

i feel this is highly unfair and that this should be assessed by usage and not by flat fees.....with a dollar being top rate. i use my tracfone because first off i cant afford the high fees of a monthly charge and secondly because i use mine in case of emergency in the car or whenever.....so for me to pay that surcharge when i barely use it as opposed to someone who practically lives on it is i feel unfair to me as a consumer.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Lisa Carlson
